

REIMBURSEMENT FOR SUBSTANCE USE SERVICES

When a patient needs services for a substance use disorder, it's critical that they get connected to the right care, fast. In-state referrals mean patients can get treatment close to home, and Ambetter members have increased access to job search and education resources, alternate housing, sober supports, and Care Management resources.

We've put together a list of some of the facilities in our network that provide substance use disorder services.* A list of abbreviations is included for your reference. Be sure to contact individual facilities to determine the age range of patients they provide services to.

*This is not a comprehensive list of providers in our network. For a full list, or if you need more assistance, reach out to our Provider Relations Representatives at Providers@ARHealthWellness.com.
