Finding the Right Care

Remember to select an in-network PCP! Check out our *Provider Directory* for a full list of your options and their contact information. It's on the **Find a Doctor** page of guide.ambetterhealth.com.

Refer to your *Evidence of Coverage* for more information on your Provider Directory.

Every time you receive care, stay within the Ambetter network to avoid balance billing by out-of-network providers.

We're proud to offer our quality service. Our local provider network is the group of doctors, hospitals and other healthcare providers who have agreed to provide you with your healthcare services.

To search our online Provider Directory, visit guide.ambetterhealth.com and use our **Ambetter Guide- the new Ambetter provider search tool**. This guide will have the most up-to-date information about our provider network, including information such as name, address, telephone numbers, hours of operation, professional qualifications, specialty, and board certification. It can help you find a primary care provider (PCP), pharmacy, lab, hospital or specialist. You can narrow your search by:

- Provider specialty
- ZIP code
- Gender
- Languages spoken
- Whether or not they are currently accepting new patients

A Provider Directory is a listing of providers near you. If you would like a printed copy of this listing, please call Member Services at 1-877-617-0390 (TTY/TDD 1-877-617-0392).

In-Network or Network Provider means a physician or provider who is identified in the most current list for the network shown on your Member ID.

Out-of-Network or Non-Network Provider means a physician or provider who is NOT identified in the most current list for the network shown on your Member ID. Services received from an out-of-network provider are covered at a reduced amount from those services received from an in-network provider.

Out-of-Area Provider means a physician or provider who is located outside of your Service Area. Refer to your *Evidence of Coverage* for more information on receiving services from Out-of-Area Providers.

Throughout the year, the provider's available in-network may change. It is important that you review the provider directory for the latest information on whether or not the provider you are planning to see is in-network. We encourage you to ask the providers if they participate with Ambetter before they treat you, so you know whether you may receive an additional bill for their services.

Get The Right Care At The Right Place

1. **Calling our 24/7 nurse advice line**
2. **Ambetter Telehealth**
3. **Making an appointment with your primary care provider (PCP)**
4. **Visiting an urgent care center**
5. **Going to the emergency room (ER)**

Get The Right Care At The Right Place

(Continued)

Your decision will depend on your specific situation. The next section describes each of your options in more detail, so keep reading.

And remember — make sure your providers are in-network in order to receive the best benefits.

Using in-network providers can save you money on your healthcare costs.

Every time you receive medical care, you will need your member ID.

Learn more about your options <https://Ambetter.ARhealthwellness.com/resources/handbooks-forms/where-to-go-for-care.html>

Your Primary Provider (PCP)

Your primary care provider is your main doctor — the one you see for regular checkups. If your condition isn't life-threatening, calling your PCP should be your first choice. Use our online Ambetter Guide to find an in-network provider in your area.

Visit or call your PCP if you need:

- Your annual wellness checkup & vaccinations
- Advice about your overall health
- Help with medical problems such as cold, the flu and fevers
- Treatments for an ongoing health issue like asthma or diabetes

Selecting A Different PCP

We want you to be happy with the care you receive from our providers. So if you would like to change your PCP for any reason, visit Ambetter.ARhealthwellness.com. Log in to your online member account and follow these steps

- 1. Click on Coverage or Edit Account**
- 2. Under the My Primary Care Provider section, pull up the Ambetter Guide to search for an in-network PCP.**
- 3. Pick a PCP from the list. Make sure you select a PCP who is currently accepting new patients.***

To learn more about a specific PCP, call 1-877-617-0390 (TTY/TDD 1-877-617-0392). You can also visit Ambetter.ARhealthwellness.com to see our provider list on our **Find a Doctor** web page.

**If you choose a nurse practitioner or physician assistant as your PCP, your benefit coverage and co-payment amounts are the same as they would be for services from other participating providers. Review your Schedule of Benefits for more information.*

Call our 24/7 nurse advice line anytime: 1-877-617-0390 (TTY/TDD 1-877-617-0392).

When To Go To An Urgent Care Center

An urgent care center provides fast, hands-on care for illnesses or injuries that aren't life threatening but still need to be treated within 24 hours. Typically, you will go to an urgent care center if your PCP cannot get you in for a visit right away.

Common urgent care issues include:

- Sprains
- Ear infections
- High fevers
- Flu symptoms with vomiting

If you think you need to go to an urgent care center, follow these steps:

- Call your PCP. Your PCP may give you care and directions over the phone or direct you to the right place for care.
- If your PCP's office is closed, you can do one of two options:
 1. Locate an in-network urgent care center by using our online Ambetter Guide at [Guide.Ambetterhealth.com](https://www.ambetterhealth.com), type in "Urgent Care" and your zip code, then click search.
 2. Call our 24/7 nurse advice line at 1-877-617-0390 (TTY/TDD 1-877-617-0392). A nurse will help you over the phone or direct you to other care. You may have to give the nurse your phone number.

Check your *Schedule of Benefits* to see how much you must pay for urgent care services.

After your visit, let your PCP know you were seen at an urgent care and why.

When To Go To The ER

Anything that could endanger your life (or your unborn child's life, if you're pregnant) without immediate medical attention is considered an emergency situation. Emergency services treat accidental injuries or the onset of what appears to be a medical condition. We cover emergency medical and behavioral health services both in and out of our service area. We cover these services 24/7. Emergency services are covered in-network and out-of-network. When receiving Emergency Care at either an in-network or out-of-network provider the only bill you should receive is for any applicable cost share. (e.g. co-pay, deductible or co-insurance)

Refer to your *Evidence of Coverage* for information on Protection from Balance Billing.

Have your member ID and photo ID ready. You will need them whenever you receive any type of care.

Urgent care is not emergency care. Only go to the ER if your doctor tells you to or if you have a life-threatening emergency.

Always make sure your providers are in-network. Using in-network providers can save you money on your healthcare costs.

If you need help deciding where to go for care, call our 24/7 nurse advice line at 1-877-617-0390 (TTY/TDD 1-877-617-0392). In an emergency, call 911 or head straight to the nearest emergency room. Seek ER services only if your life is at risk and you need immediate, emergency medical attention.

When To Go To The ER (Continued)

Go to the ER if you have:

- Broken bones
- Bleeding that won't stop
- Labor pains or other bleeding (if you're pregnant)
- Severe chest pains or heart attack symptoms
- Overdosed on drugs
- Ingested poison
- Bad burns
- Shock symptoms (sweat, thirst, dizziness, pale skin)
- Convulsions or seizures
- Trouble breathing
- The sudden inability to see, move or speak
- Gun or knife wounds

Don't go to the ER for:

- Flus, colds, sore throats or earaches
- Sprains or strains
- Cuts or scrapes that don't require stitches
- More medicine or prescription refills
- Diaper rash

What if you need Emergency Care out of our service area?

Our plan will pay for emergency care while you are out of the county or state. If you go to an out-of-network ER and you aren't experiencing a true emergency, you may be responsible for any amounts above what your plan covers. Those additional amounts could be very large and would be in addition to your plan's cost sharing and deductibles.

Learn more about your options <https://Ambetter.ARhealthwellness.com/resources/handbooks-forms/where-to-go-for-care.html>

Ambetter Telehealth

Ambetter Telehealth is our 24-hour access to healthcare providers when you have a non-emergency health issue. It's available to use when you're at home, in the office or on vacation.

Before you start using Ambetter Telehealth, you will need to set up your account at [AmbetterTelehealthAR.com](https://www.AmbetterTelehealthAR.com).

Contact Ambetter Telehealth for illnesses such as:

- Colds, flu and fevers

WHAT TO DO IF YOU RECEIVE A BILL FROM A PROVIDER OR PHYSICIAN:

When seeing an in network provider, including but not limited to physicians, hospitals, pharmacies, facilities and health care professionals, you are responsible for any applicable cost sharing amounts (e.g. co-pay, deductible or co-insurance). Please refer to your *Schedule of Benefits* for an overview of your costs for out-of-network services. Your member responsibility can be viewed on the explanation of benefits. This can be found by logging into your secure account at Ambetter.ARhealthwellness.com.

As a member of Ambetter, non-network providers should not bill you for covered services for any amount greater than your applicable in-network cost sharing responsibilities when:

- You receive a covered emergency service or air ambulance service from a non-network provider. This includes services you may get after you are in stable condition, unless the non-network provider obtains your written consent to bill you for their service.
- You receive non-emergency ancillary services (emergency medicine, anesthesiology, pathology, radiology, and neonatology, as well as diagnostic services (including radiology and laboratory services)) from a non-network provider at a network hospital or network ambulatory surgical facility.
- You receive other non-emergency services from a non-network provider at a network hospital or network ambulatory surgical facility, unless the non-network provider obtains your written consent to bill you for their service.

If you receive a bill for services in the above situations, please contact Member Services at 1-877-617-0390 (TTY/TDD 1-877-617-0392).

What Is Utilization Management?

We want to make sure you get the right care and services. Our utilization management (UM) process is designed to make sure you get the treatment you need.

We will approve all covered benefits that are medically necessary. Our UM Department checks to see if the service needed is a covered benefit. If it is a covered benefit, the UM nurses will review it to see if the service requested meets medical necessity criteria. They do this by reviewing the medical notes and talking with your doctor. Ambetter does not reward practitioners, providers or employees who perform utilization reviews, including those of the delegated entities. UM's decision making is based only on appropriateness of care, services and existence of coverage. Ambetter from Arkansas Health & Wellness does not specifically reward practitioners or other individuals for issuing denials of coverage. Financial incentives for UM decision makers do not encourage decisions that result in underutilization.

What Is Utilization Review?

Ambetter reviews services to ensure the care you receive is the best way to help improve your health condition. Utilization review includes:

Preservice or prior authorization review

Ambetter may need to approve medical services before you receive them. This process is known as prior authorization. Prior authorization means that we have pre-approved a medical service.

To see if a service requires prior authorization, check with your PCP, the ordering provider, or Ambetter Member Services. When we receive your prior authorization request, our nurses and doctors will review it. If prior authorization is not received on a medical service when required, you may be responsible for all charges.

Concurrent review

Concurrent utilization review evaluates your services or treatment plans (like an inpatient stay or hospital admission) as they happen. This process determines when treatment may no longer be medically necessary. It includes discharge planning to ensure you receive services you need after your discharge from the hospital.

Retrospective review

Retrospective review takes place after a service has already been provided. Ambetter may perform a retrospective review to make sure the information provided at the time of authorization was correct and complete. We may also evaluate services you received due to special circumstances (for example, if we didn't receive an authorization request or notification because of an emergency).

Notification of Approved Services

All claims information (including prior authorizations) can be found by logging into the member secure portal and selecting the activity and usage link.

What Is Utilization Review? (Continued)

Adverse determinations and appeals

An adverse determination occurs when a service is not considered medically necessary, appropriate, or because it is experimental or investigational. You will receive written notification to let you know if we have made an adverse determination. In the notice, you will receive detailed information about why the decision was made, as well as the process and time frame you should follow for submitting appeals.

You will now have complete access to your health information on your mobile device which will allow you to manage your health better and know what healthcare resources are available to you.

Imagine:

- You go to a new healthcare provider because you don't feel well and pulling up your health history from the past five years on your mobile device.
- Finding a provider or specialist by checking an up-to-date provider directory who can use your health history to diagnose you and ensure you receive the best care you can.
- You have a question about a claim, so you go to your computer and see if it's paid, denied, or still being processed.
- Taking your health history data, at your request, with you as you move between health plans.*

**Beginning January 1, 2022, members will have this ability to request that their health information be transferred with them as they move between health plans.*

THE NEW RULE MAKES IT SO YOU CAN EASILY FIND INFORMATION** ON:

- Claims (paid and denied)
- Specific parts of your clinical information
- Pharmacy drug coverage
- Healthcare providers

Your Healthcare Glossary

We know that health insurance can feel confusing sometimes. To help you out, we put together a list of words you may need to know as you read through this QRG. Check it out!

Adverse Determination Notice

This is the notice you receive if we deny coverage for a service you have requested.

Appeal

An Appeal is a request to reconsider a decision about the member's benefits where either a service or claim have been denied. A denial includes our decision to deny, modify, reduce, or terminate payment, coverage, authorization, or provision of health care services or benefits, including the admission to, or continued stay in, a health care facility. Failure to approve or deny a prior authorization request timely may be considered as a denial and also subject to the appeal process.

Complaint

A complaint can be an appeal or a grievance. Some complaints can be resolved through first call resolution if they can be fully addressed and closed.

Copay or Copayment

The set amount of money you pay every time you receive a medical service or pick up a prescription.

Emergency Care/Emergencies

Emergency care is care that you receive in an emergency room (ER). Only go to the ER if your life is at risk or you need immediate, emergency medical attention.

Evidence of Coverage

The document that lists all of the services and benefits that your particular plan covers. Your *Evidence of Coverage* has information about the specific benefits covered and excluded under your health plan. Read through your *Evidence of Coverage* — it can help you understand exactly what your plan does and doesn't cover.

Grievance

Any complaint about quality of service or medical care is a grievance, including dissatisfaction with the quality of medical care, waiting time for medical services, provider or staff attitude or demeanor, or dissatisfaction with service provided by the health carrier.

In-Network (Providers and/or Services)

The Ambetter network is the group of providers and hospitals we partner with to provide care for you. If your provider or service is within our network, it is covered on your health plan. If a provider or service is out-of-network, you could be responsible for services you receive. When possible, always stay in-network.

For a full list of complete definitions, please refer to your *Evidence of Coverage*.

Your Healthcare Glossary (Continued)

Inquiry

A request for clarification of a benefit, product, or eligibility where no expression of dissatisfaction was made.

Out-of-Network Provider

Means a physician or provider who is NOT identified in the most current list for the network shown on your Member ID. Services received from an out-of-network provider are covered at a reduced amount from those services received from an in-network provider.

Out-of-Area Provider

means a physician or provider who is located outside of your Service Area. Refer to your *Evidence of Coverage* for more information on receiving services from Out-of-Area Providers.

Premium Payment

Your premium is the amount of money you'll pay every month for health insurance coverage. Your monthly bill shows your premium payment.

Preventive Care Services

Preventive care services are regular healthcare services designed to keep you healthy and catch problems before they start. For example: your checkups, blood pressure tests, certain cancer screenings and more. A list of Preventive Care services can be found within your *Evidence of Coverage*, as well as on our website at Ambetter.ARhealthwellness.com.

Primary Care Provider (PCP)

Your PCP is the main doctor you will see for your healthcare needs. Get to know your PCP well and always stay up-to-date with your well-visits. The better your PCP knows your health, the better they are able to serve you.

Prior Authorization

Prior authorization may be required for covered services. When a service requires prior authorization, then the covered service needs to be approved before you visit your provider. Your provider will need to submit a prior authorization request.

Schedule of Benefits

Your *Schedule of Benefits* is a document that lists covered benefits available to you. Your *Schedule of Benefits* has information about your specific copayment, cost sharing and deductible amounts for covered benefits.

Subsidy

A subsidy is a tax credit that lowers your monthly premium. Subsidies come from the government. Whether or not you qualify for one depends on your family size, your income and where you live.

Urgent Care

Urgent care is medical care that you need quickly. You can get urgent care at an urgent care center.
