Use this checklist to make your office visit count.

Before Your Visit

- Call to confirm your appointment. Make sure you are going to a doctor in the Ambetter network.
- Write down any questions you may have. You'll find some suggested questions on the other side of this checklist.
- Also note any symptoms or conditions you may have.
- List any medications you're taking, including prescriptions, over-the-counter drugs and vitamins or supplements.

During Your Visit

- Bring this checklist with you to remind you of topics you want to discuss.
- Use this checklist to take notes during your appointment.
- Talk with your doctor about your overall health, diagnosis and treatment. Discuss in detail or explore the options open to you.
- Before you leave, schedule your next appointment. Record it on this checklist and add it to your calendar.

After Your Visit

- Review your notes and pick up any prescriptions from your pharmacy.
- If you had blood work or other tests done, expect the results according to your doctor's instructions.
- Discuss your office visit with someone you trust. Sharing your experience can help you stay on track with treatment plans.

BETTER IS: TAKING CONTROL OF YOUR HEALTH

 Use this side of the checklist to prepare for your appointment.

Some thought-starter topics for your office visit:

- Are you taking any medications? If so, are you experiencing any side-effects?
- Are you up to date on your flu vaccination and preventive screenings (colorectal, prostate and/or breast cancer, diabetes/blood glucose, etc.)?
- Do you have an exercise routine?
- Do you have any pain or condition that bothers you frequently or prevents you from doing everyday things?
- Do you have trouble sleeping? Feel down?
